

# **1 25 MW photovoltaic inverter**

## Overview

---

What is a solar inverter?

ience and the use of proven frequency converter technology. As such the solar inverters provide a highly efficient and cost-effective way to convert the direct current, generated by solar modules, into high-quality and CO<sub>2</sub> -free alternating current. Two ABB central inverters are used in the ABB megawatt station. The inverters provide high

What is a Medha solar inverter?

Medha's 1.25 MW solar inverters are engineered to provide exceptional efficiency and reliability for medium-scale solar power installations. These inverters are designed to optimize performance and energy yield, ensuring robust and consistent operation.

Which inverter is used in ABB megawatt station?

ABB central inverters are used in the ABB megawatt station. The inverters provide high conversion with low auxiliary power consumption. TransformerThe ABB megawatt station features an ABB vacuum cast coil dry-type transformer. The transformer is designed to meet the reliability

What is the efficiency of an inverter?

The inverter achieves a maximum efficiency of 98.9% with Euro/CEC efficiency of 98.71% / 98.76%. It operates efficiently across a wide temperature range and provides 110% higher operating power at lower ambient temperatures. The optimized cooling fan control enhances energy savings and extends fan life.

What is Hitachi solar inverter?

With reactive power control, 3 Level IGBT technology and wider MPPT range, Hitachi solar inverters deliver considerably maximum power generation. Its compact design and lower weight offers ease of installation, repair &

maintenance.

Why should you choose Hitachi solar inverters?

It has been thoughtfully designed keeping all the critical parameters and challenges faced by project developers in terms of better grid compliance & most importantly CAPEX vs YIELD factor. With reactive power control, 3 Level IGBT technology and wider MPPT range, Hitachi solar inverters deliver considerably maximum power generation.
