

140W all-in-one solar panel

Overview

What is included in allpowers 140W portable solar charger?

Package Contents □ ALLPOWERS 140W folding solar charger, solar to 5.5x2.1mm cable, 5 laptop and power station connectors, instruction manual. One of these items ships sooner than the other. Why Choose ALLPOWERS 140W Portable Solar Charger?

* Unique 4 ways output with parallel port design meet your needs.

What is a 140W solar cell?

140W solar cell is made from more solid material of good quality, up to 22% efficiency, providing endless power for laptop and other battery under sun. *
Unfolded Size □ 1580×650×5mm/62×22×0.4inch * Folded
Size □ 360×650×30mm/22×14.2×0.2inch.

What is a 12V 140W solar panel?

Our high quality monocrystalline 12V 140W solar panel is suitable for many applications and can work effectively in both sunny and overcast conditions. It is ideally suited for a motorhome or large caravan.

Are portable polycrystalline solar panels a good choice?

Our foldable portable polycrystalline solar panels are rugged, reliable, and easy to use. Harness the sun with portable solar power wherever you are. *
Highly Compatible with most solar generator/portable power station, laptops, car battery on the market.

How do you install a portable solar panel?

To install a portable solar panel, first, unzip the bag and pull out the panel. Open the clasp and unfold the panels (except for the 45-watt portable, which is a single panel). Then, pull out the support legs and set the panel out in direct sunlight. The panel will sit at an angle and should face the sun as

directly as possible for maximum efficiency.

What is the difference between a solar silicon and a foldable solar panel?

Foldable & Portable: 1/3 lighter than the same power of solar silicon. The total power increased by 1/3 in compare with the same solar panel size. Folded size only 22x14.2x0.2inch, 9.9lb, Great for traveling off the beaten path without access to electric and won't take up much room.
