

18-cell 104ah battery cabinet

Overview

What are cellblock battery storage cabinets?

CellBlock Battery Storage Cabinets are a superior solution for the safe storage of lithium-ion batteries and devices containing them. Our practical, durable cabinets are manufactured from aluminum, and lined with CellBlock's Fire Containment Panels.

What are cellblock cabinets made of?

Our practical, durable cabinets are manufactured from aluminum, and lined with CellBlock's Fire Containment Panels. CellBlockEX provides both insulation and fire-suppression, to keep your assets and personnel safe from hazardous lithium-ion battery fires.

What are everexceed battery cabinets?

EverExceed Battery cabinets are engineered for an uninterrupted power backup source to support the continuous operation of the higher and new requirements of these application backup.

Are battery storage cabinets safe?

Without the right separation, climate, and safety measures in place, storing batteries on-site poses a dormant but potentially expensive and devastating threat to your work environment. CellBlock Battery Storage Cabinets are a superior solution for the safe storage of lithium-ion batteries and devices containing them.

What is a battery cabinet / rack?

EverExceed designs customized battery cabinets / racks for individual batteries. The cabinet or racking system can be specified to accommodate any battery cell. From flooded to sealed, from lead acid to nickel cadmium and from vertical to horizontal all kinds of battery cabinet / rack can be designed flexibly to save the space in battery room.

Are lithium battery storage cabinets fireproof?

Constructed from powder-coated sheet steel, they incorporate a tested, liquid-tight spill sump to manage battery leaks that may catch fire. These fireproof lithium battery storage cabinets also feature self-closing doors and high-quality oil-damped door closers, further enhancing safety measures.
