

320w monocrystalline silicon photovoltaic module parameters

Overview

What is a 320W monocrystalline solar panel?

The 320W monocrystalline solar panel comes with PERC technology. Monocrystalline solar panels are a type of solar panels, and this specific one has a capacity of 320 watts. The main difference between monocrystalline solar cells and PERC solar cells is the passivation layer added on the backside of the solar cell.

What is mission Solar 320W solar panel?

Mission Solar 320W Solar Panel is a 60 cell module featuring class leading power output that makes it ideal for both commercial and residential systems. The Passivated Emitter Rear Contact (PERC) technology ensures excellent power output with the help of advanced cell structure.

What is the warranty on a Mission 320 watt solar panel?

Mission 320-watt Solar Panel goes with an industry-leading 25-year performance warranty independently backed by Powerguard's third-party insurance and a 12-year product warranty. 65.98" x 39.68" x 1.58"
