

540v inverter cabinet price

Overview

What is a rectifier / inverter system cabinet?

Rectifier / inverter system cabinet of reduced height, populated with inverter modules, “EUE” electronic bypass switch and manual bypass, together with rectifier modules. You get the most economical solution and benefit in the long term from the direct link to BENNING as the manufacturer.

How do I switch the load to the inverter output?

There is the option of switching the load to the bypass mains or to the inverter output, thanks to the manual bypass which is also housed in a 1/5, 19” rack module. System cabinets are available in a range of different sizes, coming with the required number of racks for inverters and for rectifiers.

What types of inverter modules are available?

The inverter modules are available for various input and output voltages, and the output power varies according to the voltage combination. INVERTRONIC compact inverter systems and their racks, comprising hot-swapping 1/5 19” rack modules with a range of 3 heights, are characterised by their modular architecture.

What is a compact inverter system?

INVERTRONIC compact inverter systems and their racks, comprising hot-swapping 1/5 19” rack modules with a range of 3 heights, are characterised by their modular architecture. Electronic bypass switch assures system availability, enables interruption-free switching and is available in two power ratings.

540v inverter cabinet price

Inverter Cabinet Price

The Inverter Cabinet Price is included in our comprehensive Power Distribution Cabinet & Box range. To distinguish between suppliers in China, evaluate their manufacturing capabilities, ...
