

5G base stations and communications in Colombia

Overview

Is 5G a reality in Colombia?

Mauricio Lizcano, Colombia's Minister of Information Technology and Communications, expressed enthusiasm about the development, stating, "Historic! 5G is a reality for Colombians." He further announced that the implementation of 5G services is set to commence in February of the following year.

What is Colombia's 4G and 5G Action Plan?

The Plan reflects the Petro administration priority of increasing connectivity throughout the country. By 2026, the administration's goal is to provide 85% of Colombia's population with meaningful levels of connectivity. 4G and 5G Auction Development Timeline: December 2022: Publication of 5G Action Plan.

When will 5G start in Colombia?

He further announced that the implementation of 5G services is set to commence in February of the following year. Lizcano also shed light on the expected investment trajectory for Colombia's 5G network. Over the next decade, the nation anticipates an investment of around 28 trillion pesos (close to \$7.11 billion).

Who won 5G data services auction in Colombia?

Colombia, stepping boldly into the future of telecommunications, has announced the winners of its much-anticipated fifth-generation (5G) data services auction. In a competitive bid that drew attention from major players in the telecom industry, Claro, Telecall Colombia S.A.S., W.O.M., and Union Temporal Colombia Movil-Telefonica emerged victorious.

Why is the 5G auction important for Colombia?

The successful execution of the 5G auction represents a landmark

achievement for Colombia. It brings the country to the forefront of the 5G revolution in Latin America and sets a precedent for future technological advancements.

What does the 5G plan mean for telcos?

The 5G Plan also indicates a preference for Non-Stand Alone (NSA) networks based on 4G LTE, emphasizes the principle of maintaining technology neutrality, and underscores the necessity of network and infrastructure sharing to lower telco costs.
