

715wpn heterojunction double-glass bifacial module

Overview

Which bifacial solar panels are available for ground-mounted PV applications?

Chinese PV module manufacturer Huasun has unveiled new bifacial, dual-glass HJT solar panels for ground-mounted PV applications. Huasun originally introduced the G12 Himalaya series in mid-2022. It came in five versions, with power outputs ranging from 680 W to 700 W. It has now announced a new 715 W module, certified by TÜV SÜD Group.

Does huasun have a 715 W PV module?

It has now announced a new 715 W module, certified by TÜV SÜD Group. “Recently, Huasun’s Himalaya G12-132 HJT module successfully passed the full sequence test of TÜV SÜD Group and obtained the standard certification IEC61215 on PV module performance,” the company said in a statement.

How efficient is huasun 715 W solar panel?

Although, Huasun has yet to disclose the efficiency rating of the 715 W module. The measurement of the solar panel is 2,384 mm x 1,303 mm x 35 mm that weighs 38.7 kg. There are 132 half-cut monocrystalline HJT cells each of the size of 210 mm x 105 mm.

What is the efficiency rating of huasun 715 W module?

The open-circuit voltage is between 49.5 V and 50.13 V and the short-circuit current spans from 17.19 A and 17.43 A. Huasun did not disclose the efficiency rating of the 715 W module. The new panels measure 2,384 mm x 1,303 mm x 35 mm and weigh 38.7 kg.
