

80v inverter price

Overview

Can a GreenWorks 80v inverter be plugged into a power outlet?

A: Hello Morton4. It is not recommended to leave the Greenworks 80V inverter connected to the power outlet continuously to keep the battery fully charged, you can charge the battery using a compatible Greenworks 80V charger connected to a standard 120V outlet. Helpful?

.

How much power do I need to use my inverter?

When using the inverter, you want to ensure any products that will be plugged into the unit must be less than 120V and pull 300 Watts or less. Please check the specifications on the products you wish to use to ensure the inverter can handle power required safely.

How much does an inverter cost?

At the average \$0.18 per watt and with the average installation costing \$2.93 per watt, inverters usually account for about 6% of total installation costs. This means that a typical 5.6-kilowatt installation costs \$16,408 in total and the inverter should account for about \$1,000 of that.

Does GreenWorks have a power inverter?

80V Cordless Battery 300 Watt Power Inverter (Tool Only) Find peace of mind with Greenworks Limited Warranty. Removable battery powers over 75 Greenworks 80-Volt tools. Media Carousel - Carousel with product photos. Use the previous and next buttons to navigate.
