

All-vanadium liquid flow battery production project

Overview

China has established itself as a global leader in energy storage technology by completing the world's largest vanadium redox flow battery project. The 175 MW/700 MWh Xinhua Ushi Energy Storage Project, built by Dalian-based Rongke Power, is now operational in Xinjiang, northwest China.

All-vanadium liquid flow battery production project

What's Behind China's Massive New Flow Battery Breakthrough?

China has established itself as a global leader in energy storage technology by completing the world's largest vanadium redox flow battery project. The 175 MW/700 MWh ...
