

# **Australian container photovoltaic panel manufacturer**

## Overview

---

Who makes shipping container solar panels?

Fleet Containers ensures the highest quality in our shipping container solar panel installations. We work with trusted suppliers and manufacturers who adhere to industry standards and provide reliable and efficient solar panels.

What is a solar container build?

It's a modified shipping container built to house solar panels, batteries, inverters, and other off-grid power systems. These units are ideal for powering remote sites, construction camps, emergency setups, or as a portable backup energy system. What's included in a solar container build?

.

What is a shipping container solar solution?

It's a modified shipping container built to house solar panels, batteries, inverters, and other off-grid power systems. These units are ideal for powering remote sites, construction camps, emergency setups, or as a portable backup energy system.

What are containerised off-grid solar systems?

Our Containerised Off-Grid Solar Systems are massive energy storage systems designed to supply a business or remote location with renewable energy. Suitable for farms, mines, or a cluster of houses. Run all the gadgets you can think of, including large machinery and industrial pumps.

What is a containerised Solar System?

Containerised systems are manufactured and tested at RPC to reduce installation time and cost. You would need a very large roof or ground mount frames to accommodate up to 288 solar panels. Contact Us A 48V stand alone system with a 6 x 8000W battery inverters. Designed for an overall

consumption of about 120 kWh per day \*.

Are shipping container solar panels durable?

**Durability and Low Maintenance:** Solar panels are designed to be durable and require minimal maintenance. Once installed, they can operate efficiently for decades with minimal upkeep. Fleet Containers ensures the highest quality in our shipping container solar panel installations.
