

Base station battery backup power supply

**High Voltage
Solar Battery**

Overview

The Power-Pac offers peace of mind for the system designer or base station operator. This unique power supply assures that a base station can remain up and running to power communications when it is often needed most - during a power outage.

With 7 amp/hour battery installed, unit provides approximately the following power.*7 amps for 40 min. 10 amps for 20 min. 15 amps for 10 min. 20 amps for 4 min. With 14.

Input: 115/230 VAC, 50-60 Hz. Output: 13.6 VDC @ 5A cont., 10A Int.
Regulation: 1% line and load Ripple:1% P-P Operating Temp:0-40° C

A telecom battery backup system is a comprehensive portfolio of energy storage batteries used as backup power for base stations to ensure a reliable and stable power supply.

Base station battery backup power supply

NPP POWER - Clean Energy Safe Power

NPP Lithium batteries are commonly used in UPS Backup, Marine, Telecom, Electric vehicles, Golf Cart applications, Outdoor power supply, PV energy storage, etc. In recent years, along ...
