

Battery cabinet production factory

Overview

Where are high-voltage batteries made?

From April 2025, high-voltage batteries will be manufactured industrially in Nuremberg using state-of-the-art production methods on 17,000square metres. This will create almost 350 new jobs for the future. MAN will be the first commercial vehicle manufacturer to start its own battery series production in Germany.

Where are man etruck batteries made?

A few weeks after the delivery of the very first MAN eTruck to a customer, the topping-out ceremony is the next highlight for the Munich-based commercial vehicle manufacturer. From April 2025, high-voltage batteries will be manufactured industrially in Nuremberg using state-of-the-art production methods on 17,000square metres.

How many man batteries can be produced a year?

In the current expansion stage, 50,000 battery packs per year can be produced there, with a possible maximum of 100,000 units – the exact figure depends on the respective market situation. MAN uses NMC cell chemistry (nickel-manganese-cobalt) in its batteries, which has been specially adapted to the operation of commercial vehicles.

Did the Bavarian Minister-President miss the start of battery production in Nuremberg?

Historic events deserve to be celebrated. And so, neither the Bavarian Minister-President Dr. Markus Söder nor the Bavarian Minister of Economic Affairs, Regional Development and Energy Hubert Aiwanger, missed the opportunity to attend the start of battery production in Nuremberg.

How do man batteries work?

Using an 8 kW disc laser, robot-guided optics, and highly precise sensors,

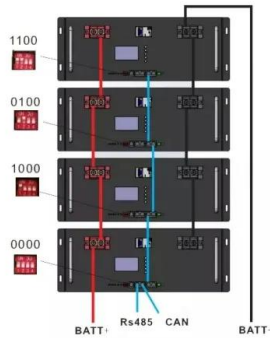

individual battery cells are electrically connected with the utmost precision and quality. MAN works with the Technical University of Munich to advance this technology for the future generation of batteries.

How much money does Germany spend on battery development in 2022?

Following initial funding of 30 million euros in 2022 for research and development, the Free State of Bavaria is now supporting the future production of battery modules with almost six million euros." This brings the total investment in Nuremberg to half a billion euros. This is a clear commitment to Bavaria and Germany as a centre of innovation.
