

# **Botswana 5g base station installation**

## Overview

---

Can 5G technology be used in Botswana?

Jerôme HENIQUE, CEO of Orange Middle East and Africa, says: “The launch of 5G technology in Botswana will allow us to scale-up this technology and gain experience for other Orange countries across Africa. The benefits and potential impact of this are promising.

Will Orange Botswana launch 5G in 2023?

Orange Botswana is the first Orange affiliate to launch 5G, with a coverage of 30% of the population, including greater Gaborone and Francistown. Other cities will follow in early 2023. It follows the launch of Botswana’s first Orange Digital Centre this morning, which will help bridge the digital divide.

Will Orange Botswana implement 5G-based use cases?

Orange Botswana is looking forward to collaborating with government and enterprises to implement 5G-based use cases. Orange Botswana introduces new 5G fixed broadband services and mobile data bundles. The offers are available for residential customers, small and medium enterprises and include value added services.

Does Orange Botswana offer 5G broadband services?

Orange Botswana introduces new 5G fixed broadband services and mobile data bundles. The offers are available for residential customers, small and medium enterprises and include value added services. The fixed offers are available from 15Mbps for Prepaid and from 20Mbps for Postpaid with a monthly rental from BWP 699 (€53 per month).

Will Botswana's Orange Digital Centre Bridge the digital divide?

It follows the launch of Botswana’s first Orange Digital Centre this morning, which will help bridge the digital divide and prepare Botswana youth for employment in a blossoming digital ecosystem.

What is a connected ambulance project in Botswana?

Orange Botswana has partnered with MRI Botswana to create a “Connected Ambulance” project that will allow Doctors to guide Paramedics through life saving procedures on their way to hospitals. This telemedicine intervention will change lives and would not have been possible without 5G.
