

Chile energy storage container assembled house

Overview

What is a container home in Chile?

Container homes in Chile stand out for their unique ability to merge aesthetics with practicality. These homes, primarily crafted from repurposed shipping containers, are not only an embodiment of sustainable living but also offer unparalleled durability.

What is a container apartment in Chile?

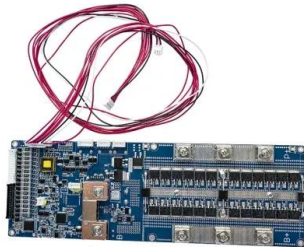

In Chile, container apartments and buildings represent a unique blend of innovation, practicality, and sustainability. They offer flexible, cost-effective, and eco-friendly solutions for various applications, catering to the evolving needs of contemporary society and urban living.

Can you build a house from shipping containers?

Completed in 2012 by Sebastian Irarrazaval and Erick Caro, this house is built from some shipping containers to reduce construction time and costs. For this project, there are some second-hand shipping containers that used: one 40" open-top container for the swimming pool, six 20" standard containers, and five 40" standard containers.
