

Columbia Portable Electric Energy Storage

Overview

What is the Columbia Energy Storage Project?

Sign up for WPR's email newsletter. The Columbia Energy Storage Project would store excess energy from the electric grid by converting carbon dioxide gas into a compressed liquid form and then converting that liquid back into a gas, powering a turbine to generate electricity, according to the Department of Energy.

What is Alliant Energy's Columbia Energy Storage Project?

Alliant Energy's revolutionary Columbia Energy Storage Project, using Energy Dome's safe, reliable CO2 battery, represents a significant advancement in energy storage while bolstering the power grid to benefit Wisconsin customers.

Is a new energy storage system coming to Wisconsin?

Photo courtesy of Alliant Energy A first of its kind energy storage system coming to Wisconsin took a step forward this month, almost a year after the project was announced. Alliant Energy filed an application with the state Public Service Commission on Aug. 7 to build a long-duration energy storage system in Columbia County.

Where will a new energy storage system be built?

The energy storage system will be built south of Portage, Wisconsin in the town of Pacific and near Alliant Energy's existing Columbia Energy Center. Construction is expected to begin in 2026 and be completed by the end of 2027.

Columbia Portable Electric Energy Storage

[Portable Energy Storage & Charging Systems](#)

Envoltage portable energy storage & charging systems are high-capacity battery packs in a compact and travel-friendly design. These devices come with a ...
