

# **Comoros promotes energy storage system**

## Overview

---

In 2022, a German-Komoran consortium deployed Africa's first island-scale battery storage system (4.8MWh capacity). The results?

Project lead Dr. Amina Said famously joked: "We're not just storing electrons - we're storing economic potential." Is the Comoros transitioning to res?

The Comoros, like Madagascar, Mauritius, and Reunion, has recently focused its efforts on the transition to renewable energy sources (RES) throughout its territory. This paper provides policymakers with a comprehensive overview of the energy situation in the Comoros.

What is the energy situation in the Comoros?

The energy situation in the Comoros is substantially based on fossil fuel imports. This archipelago's socioeconomic development is heavily dependent on energy security from sustainability, availability, and affordability perspectives.

Should Comoros invest in solar energy?

The Comoros has significant potential for the development of photovoltaic energy (\*\*should they invest in it\*\) given its economic situation. Recently, a French company signed a contract with SONELEC to purchase electricity from solar energy for 26 years.

Why are the Comoros focusing on energy security & sustainability?

Driven by global concerns, the islands throughout the Indian Ocean are becoming increasingly interested in energy security and sustainability issues. The Comoros, similar to Madagascar, Mauritius, and Reunion, has very recently focused their efforts on the transition to RES throughout its territory.

What is the infrastructure like in Comoros?

Comoros has limited infrastructure for inter-island transportation. Only one

official maritime operator is available for passenger and cargo services. This ship sails only once a week and can carry a maximum of 200 passengers.

What is the environmental impact of production in the Comoros?

The environmental impact of energy production in the Comoros is high, with a Global Warming Potential (GWP) of 0.930 kg CO<sub>2</sub> eq / kWh. At present, the level of production in the Comoros is small overall.
