

Congo Kinshasa rooftop solar photovoltaic panels

Overview

What is Kinshasa Solar City PV Park?

Kinshasa Solar City PV Park is a 1,000MW solar PV power project. It is planned in Kinshasa, Democratic Republic of the Congo. According to GlobalData, who tracks and profiles over 170,000 power plants worldwide, the project is currently at the under construction stage. It will be developed in multiple phases.

Who owns Kinshasa electricity?

The city-wide project network has a power purchase agreement signed by national utility Société nationale d'électricité and the provincial government of Kinshasa with the Sun Plus subsidiary of U.S. real estate investor The Sandi Group. The 25-year deal will see the power company buy the electricity generated for \$0.095/kWh.

How much electricity does the Democratic Republic of Congo have?

The Democratic Republic of Congo has a population of 85 million, of whom only around 9% have access to electricity, a figure which falls near 1% in rural areas. The nation has total electric generation capacity of just over 2.67 GW, of which 2.54 GW is hydropower and 135 MW thermal.
