

Customized batteries as outdoor power supply

Overview

What is a custom battery pack?

Understanding custom battery packs is simple – they’re tailor-made to suit your specific needs. Unlike regular batteries, they’re designed to meet your unique power requirements. We customize battery packs based on voltage, capacity, size, shape, and even the type of cell. But why does this matter, you might ask?

.

What products does custom power offer?

Custom Power offers a comprehensive range of products and custom designs for lithium-ion, lithium polymer, primary lithium, nickel-metal hydride (NiMH), nickel-cadmium (NiCd) and alkaline batteries. Explore some of the specific product types we supply.

Why should you choose Batteries Inc?

Countless reasons make Batteries Inc. your go-to for custom battery packs. With an exceptional track record dating back to 1970, we are the experts in providing you with power solutions tailored to your unique needs. Our commitment to safety and quality is unwavering and we go above and beyond to guarantee you get the best.

Why do you need a battery pack?

Because it’s not just about powering your devices – it’s about guaranteeing they function safely and efficiently. The right battery pack can extend the life of your equipment and even enhance its performance. We use high-quality brands like Duracell, Energizer, Saft, Power-Sonic, Omni, and Sanyo to guarantee superior quality.

What makes BMS a better battery management system?

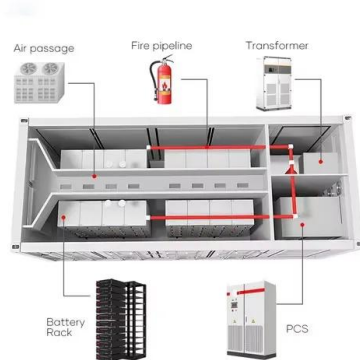

With over 2,000 BMS designs and numerous patents awarded or pending, our innovations set the standard for better, safer battery management systems — including enhanced protection against thermal propagation and enabling compatibility with various battery types.

Why do we design EV batteries?

Mission-critical sectors like medical and defense entrust us to design and develop batteries that ensure user safety and deliver vital, life-saving functions. We also create powerful EV battery systems capable of powering heavy equipment.
