

# **Does Georgia have custom-made lithium battery packs**

## Overview

---

Is a custom battery pack better than a lithium-ion battery pack?

In some instances, a custom NiMH battery pack or custom alkaline battery pack may perform better than a lithium-ion battery pack, while keeping your costs lower. When involving our team of engineers early on in the design process, we can help assist you in choosing the proper custom battery solutions for your needs.

Which lithium-ion cell is best for a custom battery pack?

The 18650 lithium-ion cell is one of the most popular choices for custom battery packs due to its high energy density, reliability, and versatility. To create the ideal custom battery pack with EGbatt, we'll need some key information from you: Let us know what your product or device is.

Why should you choose a custom lithium-ion battery?

With custom Lithium-Ion batteries designed to your specifications and constructed with unique features, you receive the best possible design for your application. Secure a custom rechargeable battery solution your project needs to function to its fullest capabilities.

Why are custom lithium-ion batteries in high demand?

Off-the-shelf battery packs rarely meet the exact requirements of modern electronic devices. That's why custom lithium-ion battery solutions are in high demand. Here are a few key reasons: Size and Dimensions: Standard batteries often don't fit perfectly into electric vehicles, portable electronics, or specialized devices.

What is a custom lithium polymer battery pack?

Lithium Polymer Battery Applications Custom LiPO Battery Packs (Lithium Polymer) are an excellent choice for battery pack designs requiring low profile, high energy density, dimensional flexibility, and very low current applications.

## Why do companies choose Lithium Power?

One of the major reasons why companies choose Lithium Power, Inc. as their technical partner is because we can provide them with communication protocols to control, command, and remotely monitor/manage their custom made battery packs. The ability to offer communication capabilities makes our battery packs far more intelligent and desirable.
