

East Asian Intelligent Energy Storage Equipment Enterprise

Overview

What is Southeast Asia's largest energy storage system?

Sembcorp Industries (Sembcorp) and Singapore's Energy Market Authority (EMA) have officially opened what is being touted as Southeast Asia's largest energy storage system. The Sembcorp energy storage system (ESS) spans two hectares of land in the Banyan and Sakra region on Jurong Island, southwest of the main island of Singapore.

What are ESSASIAN intelligent solutions?

Our ESSASIAN Intelligent solutions provide operation optimization of BESS and integrated equipment such as solar, wind and GTCC power plant. This intelligent solution includes technology modules of demand prediction, renewable generation prediction and BESS operation optimization.

Are battery energy storage systems revolutionizing energy solutions?

In an article featured on The Business Times, Rodrigo Hernandezvara, Head of Solar C&I at ENGIE highlights how Battery Energy Storage Systems (BESS), combined with renewable energy sources like solar power, are revolutionizing energy solutions for the region.

How will BESS help Southeast Asia reshape the energy landscape?

By providing flexible, reliable, and scalable power, BESS enables Southeast Asia to overcome traditional infrastructure limitations and embrace a sustainable future. What role will BESS play in reshaping Southeast Asia's energy landscape?

Explore the insights here.
