

Energy storage related investment plans

Overview

Why is DOE investing in energy storage?

The underlying motivation for DOE's strategic investment in energy storage is to ensure that the American people will have access to energy storage innovations that enable resilient, flexible, affordable, and secure energy systems and supply, for everyone, everywhere.

Why should we invest in energy storage?

The SRM cites the underlying motivation for investment in energy storage as ensuring "that the American people will have the resources needed, when needed." "1. To facilitate safe, beneficial, and timely deployment of energy storage technologies and accelerate the development of new technologies that address current and emerging consumer needs.

Does the energy storage strategic plan address new policy actions?

This SRM does not address new policy actions, nor does it specify budgets and resources for future activities. This Energy Storage SRM responds to the Energy Storage Strategic Plan periodic update requirement of the Better Energy Storage Technology (BEST) section of the Energy Policy Act of 2020 (42 U.S.C. § 17232 (b) (5)).

What is energy storage?

Energy storage encompasses an array of technologies that enable energy produced at one time, such as during daylight or windy hours, to be stored for later use. LPO can finance commercially ready projects across storage technologies, including flywheels, mechanical technologies, electrochemical technologies, thermal storage, and chemical storage.

Are energy storage systems in demand?

Energy storage systems are increasingly in demand to increase the effectiveness of solar power arrays, with the Energy Information

Administration estimating in February that new utility-scale electric-generating capacity on the U.S. power grid will hit a record in 2025 after a 30% increase over the prior year.

Can LPO finance energy storage projects?

LPO can finance short and long duration energy storage projects to increase flexibility, stability, resilience, and reliability on a renewables-heavy grid. Why Energy Storage?

Energy storage related investment plans

Colombia, CIF, and IDB Partner to Launch the Clean Energy ...

3 days ago· The Government of Colombia, the Climate Investment Funds, and the Inter-American Development Bank will gather with partners on September 10 to 12, 2025 to kick ...
