

Eritrea Brand Solar System Introduction

Overview

Where is the 30 MW solar plant being developed in Eritrea?

The African Development Fund (ADF) is helping Eritrea's government to develop a 30 MW solar plant in Dekemhare, in the central part of the African country. It has launched a tender to seek consultants for the project.

What is Eritrea's installed PV capacity?

According to the International Renewable Energy Agency (IRENA), Eritrea had just 24 MW of installed PV capacity at the end of 2021.

What is Eritrea's national energy policy?

The Eritrea National Energy Policy, issued in 2018, aims to increase the electrification rate across the country. According to the International Renewable Energy Agency (IRENA), Eritrea had just 24 MW of installed PV capacity at the end of 2021. Prospective consultants have until Feb. 23 to submit their proposals.

What is the African Development Fund (ADF) doing in Eritrea?

The African Development Fund (ADF) is helping Eritrea's government to develop a 30 MW solar plant in Dekemhare. The ADF is currently seeking consultants for the project through a tender. The project will include an unspecified amount of battery storage and a 66 kV transmission line.
