

European energy storage project bids open

Overview

The deadlines for submissions are 2 September 2025 (first stage) and 31 March 2026 (second stage). You can find all the information and documentation required, including the call text and application forms on the Funding and Tenders Portal using the call reference: HORIZON-CL5-2025-01-Two-Stage-D3. Why is the EU investing in Smart Grid projects?

The EU is investing in smart grid projects to ensure smooth integration of energy storage with renewables. Through digitalization initiatives funded by programs like Horizon Europe, the EU is building grids that efficiently balance renewable energy, storage, and distributed energy resources (DERs).

How does the EU support a circular battery economy?

This initiative supports the EU's efforts to establish a circular battery economy, benefiting renewable energy storage by promoting more sustainable, long-lasting batteries. The EU is investing in smart grid projects to ensure smooth integration of energy storage with renewables.

Is hydrogen storage a key component of EU energy transition strategy?

Hydrogen Storage Market: Hydrogen storage is also emerging as a critical component in the EU's energy transition strategy. As green hydrogen production ramps up, the EU has seen a notable increase in pilot projects and investments in hydrogen storage facilities, including underground storage for long-term energy needs.

What are energy storage facilities?

Additionally, energy storage facilities can be in individual or aggregated form, used for storing energy on a permanent or temporary basis, in aboveground or underground infrastructure or geological sites, provided they are directly connected to high-voltage transmission lines and distribution lines designed for a voltage of 110 kV or more.

European energy storage project bids open

Call for proposals for the EU Renewable Energy Financing ...

A typical call of the EU Renewable Energy Financing Mechanism is price-based, targeted at capacity and follows the pay-as-bid principle, where the awarding criteria is ...
