

Finland local photovoltaic panel manufacturers

Overview

Why is Finland a good place to install solar panels?

"Finland's advantage is its low atmospheric temperature, which improves the efficiency of solar photovoltaic cells. The colder it gets, the better the solar panels work. Solar panels can also withstand snow loads if they are installed following directions.

Who makes Salo solar panels?

Salo Solar designs, sells and builds comprehensive turnkey solar electricity systems. Salo Tech manufactures and sells high-quality Finnish SALO® solar panels. Salo Automation designs and builds production lines and machines meant for the production of solar panels. Salo Energy builds solar parks and invests in local solar electricity.

Is Finland a good place to install a wall?

Closer to the equator, the sun shines directly overhead, making wall installations unprofitable. In Finland, however, the optimal installation angle in terms of annual production is rather steep. It's an ace up the Nordic sleeve when it comes to installation possibilities.
