

French rechargeable energy storage battery customization

Overview

What is Envision Energy's first independent battery energy storage contract in France?

After previous triumphs in Europe, this project represents Envision Energy's first independent battery energy storage contract in France. Envision Energy will provide a minimum of a 14-year long-term maintenance (LTSA) agreement, starting construction in June 2025, ensuring ongoing presence in the area once the construction phase is complete.

What is tagenergy doing in France?

"TagEnergy is proud to announce this flagship project in France, just weeks after connecting the first phase of the Southern Hemisphere's largest wind farm in Australia and the UK's largest transmission-connected battery", said Franck Woitiez, CEO of TagEnergy.

What is the purpose of the French power reserve?

It will be used to provide fast reserve services to support the stability of the French power grid. It is part of government policy to support the development of electrical capacity through capacity mechanisms.

Is France a key market for Envision Energy?

Henry Peng, Senior Vice President and President of Latin America and European Region, Envision Energy, stated: "France is a key market for Envision Energy as we expand our presence across Europe, and our partnership with Kallista Energy marks a significant milestone in this journey.

How will total contribute to France's energy mix?

It will contribute toward the goal of increasing the share of renewables in France's energy mix, while helping to stabilize the domestic power grid," said Patrick Pouyanné, Chairman and CEO of Total. "Total's involvement in the electricity segment continues to expand.

French rechargeable energy storage battery customization

Custom lithium battery manufacturer

As a pioneer in energy innovation, we design custom electrical storage solutions in France to fit all project sizes. Whether you are a demanding project manager, a procurement officer, or an ...
