

Georgia high power inverter wholesale

Overview

What types of solar inverters are available?

Models include Solaron 250 kW Solaron 333 kW Residential, Industrial and Commercial Inverters with built-in disconnects from Solectria include PVI3000 PVI4000 PVI5000 PVI5300 Residential models and PVI13KW PVI15KW commercial and industrial models.

What are the different types of inverters?

Stand-alone inverters are available with three basic power output waveforms: square wave, modified square wave (often called modified sine wave) and sine wave. Intertie inverters and utility companies deliver a sine wave. Square wave inverters have the lowest cost and efficiency and are not sold in this catalog.

What is a sinewave inverter?

A compact sinewave inverter for remote applications including SCADA, Wi-Fi, telecom, radio, remote cabins, small computers, RVs and other applications not requiring large load requirements. Stand-alone Inverters convert DC power stored in batteries to AC power that can be used as needed.

What are examples of Intertie inverters?

The Trace SWPV, UT and micro sine, AEI GC and Omnion 2400 inverters are examples of an intertie inverter. Using a multifunction inverter allows you to sell excess power to the utility, and also maintain a battery bank for standby power in the event of a utility power failure.

Which square wave inverter is best?

Square wave inverters have the lowest cost and efficiency and are not sold in this catalog. The price of the better quality inverters is low enough to make square wave inverters an unattractive choice. Trace UX series, DR series, U series inverters and Genius inverters have modified square wave output with

harmonic distortion of around 40%.

Are ExelTech sinewave inverters a good choice?

They are an excellent choice for a 'whole house" inverter. Exeltech sinewave inverters, available in sizes from 150 watts to 5000 watts, are an excellent choice for power systems running audio or telecommunications equipment and other electronics that are waveform-sensitive.
