

Georgia rechargeable energy storage battery prices

Overview

As of June 2025, the average storage system cost in Georgia is \$1580/kWh. Given a storage system size of 13 kWh, an average storage installation in Georgia ranges in cost from \$17,459 to \$23,621, with the average gross price for storage in Georgia coming in at \$20,540. Will Georgia Power offer more battery energy storage projects?

In that filing, Georgia Power signaled its intention to solicit bids for more storage- another 500 MW- in the near future. Battery energy storage projects are popping up all over the U.S., which added nearly 4 GW of storage capacity in the second quarter of this year alone, according to a recent report.

When will Georgia's battery storage system come online?

The battery system is expected to come online as early as 2026 and is subject to regulatory approvals. "As we continue to build Georgia's clean energy future, battery storage systems play a vital role in how we will continue to serve our customers with clean, reliable energy for decades to come.

How many battery energy storage sites will Georgia Power have in 2026?

Georgia Power has applied for certification of four battery energy storage sites totaling 500 MW expected to come online in 2026. In a continued effort to limit its use of fossil fuels to mitigate peaks, Georgia Power Company is adding a whole mess of new BESS.

Why do Georgians need battery storage systems?

Battery storage systems part of plan to add renewable energy and help ensure reliability for Georgians.

Can battery energy storage systems be integrated into the power grid?

Integrating battery energy storage systems into the power grid requires extensive planning and analysis.

What does Georgia Power do?

Georgia Power provides electricity to 2.7 million customers in all but four of Georgia's 159 counties. The company is committed to delivering clean, safe, reliable and affordable energy for every customer, and works with the Georgia Public Service Commission (PSC) to ensure it can meet Georgia's future energy needs.
