

Honduras outdoor power supply customization

Overview

What type of power plug is used in Honduras?

In Honduras, power plugs and sockets (outlets) of type A and type B are used. The standard voltage is 110 V at a frequency of 60 Hz. For more information, select the country you live in at the top of this page. We don't sell power plug adapters. We refer you to Amazon, where you will find a great selection of travel adapters.

Do I need a power adapter in Honduras?

If your devices are compatible with these specifications, you will not need a power adapter. However, if your devices use a different plug type or are not compatible with the voltage in Honduras, you will need a power adapter and/or a voltage converter/transformer.

What type of power socket is used in Honduras?

The power sockets in Honduras are of type A and B. The standard voltage is 110 V at a frequency of 60 Hz. Check your need for a power plug (travel) adapter in Honduras.

How do I know if my power plugs are compatible in Honduras?

Select your country of residence, to check the compatibility of your power plugs in Honduras. In Honduras, power plugs and sockets (outlets) of type A and type B are used. The standard voltage is 110 V at a frequency of 60 Hz. For more information, select the country you live in at the top of this page. We don't sell power plug adapters.

What type of power system does Honduras use?

With an installed generation capacity of 1,568 MW (2007), Honduras relies on a thermal-based power system (accounting for nearly two-thirds of its total installed capacity), which is very vulnerable to high and volatile international oil prices. [full citation needed] The generation mix is as follows:.

What is the standard voltage in Honduras?

The standard voltage in Honduras is 120 V, and the standard frequency is 60 Hz. If you're coming from a country that uses a different voltage, you may need a voltage converter or transformer in addition to a plug adapter. What is my country's voltage and frequency?
