Overview

Does Senegal have a 5G network?

Orange Senegal and Free Senegal launch 5G after securing spectrum in the 3.5GHz band. Axian Telecom increases its stake in Free Senegal to 80%. Senegal's internet services remain susceptible to government censorship.

How many 5G base stations are there in China?

In data collected between July 2022 and June 2024, China was reported to have had around 3.5 million 5G base stations installed across the country, with Chinese mobile operators investing heavily in 5G infrastructure. By comparison, the European Union had around 460,000 thousand base stations, while the United States had approximately 175,000.

Is 5G coming to Dakar?

The operator has invited prospective customers to see 5G in action at the Orange Digital Center (ODC) in Dakar. The launch of commercial 5G by Sonatel comes around seven months after the operator acquired the first 5G operating licence in Senegal from the Telecommunications and Postal Regulatory Authority (ARTP) for \$57 million.

Does Senegal have a telecom market?

Senegal's telecom market continues to show steady growth in all sectors. This has been supported by the government's ambitions to develop a digital transformation of the economy using ICTs and wider access to internet connectivity.

Does Sonatel have a 5G pilot in Senegal?

Sonatel, which trades as Orange in Senegal through that company's controlling stake, has launched commercial 5G pilot to provide fixed and mobile internet to residential and business customers in the country. The operator has invited prospective customers to see 5G in action at the Orange

Digital Center (ODC) in Dakar.

What happened to Free Telecom in Senegal?

Free sold its passive infrastructure assets (including 1,220 sites) to Helios Towers in 2020, in turn securing a 15-year lease on the infrastructure. In mid-2021, Helios Towers Senegal began a \$200 million investment program aimed at upgrading telecom coverage in Senegal through to 2026.
