Overview

What are the future directions of 5G in Southeast Asia?

This report provides essential insights into the current state and future directions of 5G across six key Southeast Asian markets. Singapore leads the region, with telcos achieving 95% coverage and exploring enterprise use cases. Meanwhile Indonesia, Malaysia, Philippines and Vietnam face challenges expanding 5G beyond major cities.

Which countries are launching 5G in Southeast Asia?

Countries in Southeast Asia (SEA) are at different stages of 5G adoption. The Philippines, Singapore, Thailand and Malaysia, for instance, are fairly mature markets while Indonesia is struggling to see 5G evolve amid tepid demand. Vietnam launched 5G only this year and Cambodia is yet to venture into 5G.

How many 5G subscriptions are there in South East Asia & Oceania?

Although each country in the South East Asia and Oceania region is at a different stage of their 5G journey, 5G is growing strongly, with the regional number of 5G subscriptions expected to reach close to 30 million in 2022. 5G is forecast to have around 620 million 5G subscriptions in South East Asia and Oceania by the end of 2028.

What will 5G mean for Southeast Asia?

Consumers, telecom operators, and enterprises have been eagerly awaiting the arrival of the 5G networks throughout Southeast Asia. 5G networks promise more bandwidth and faster connections than previous cellular broadband technologies, and carriers a promise that 5G will boost internet of things (IoT) deployments.

Which cities have the best 5G speeds in Asia Pacific?

Seoul and Kuala Lumpur are the top cities in the Asia Pacific region for 5G speeds. Given that both Malaysia and South Korea are ahead in 5G

performance among their peers, it is unsurprising that their capital cities came first as well in the ranking of selected cities.

Which countries are leading 5G network deployment?

South Korea, China, and Japan have led the way in 5G network deployment. With the continued rollout of 5G networks in other regional markets, Asia Pacific is on track to become the largest 5G market globally. Advanced Asia Pacific markets have taken the lead in the 5G rollout.
