

How many days does it take to install an energy storage container

Overview

How long does delivery take from order to installation?

This is dependent on a range of factors. As a general guideline, we can usually deliver in around 6 – 8 weeks however several things need to happen before we can commission a system. How long does it take to hire a storage container?

*Note, our hire containers are subject to a minimum 4 week hire period. Delivery charges apply each way (delivery and collection). How does storage container rental work?

.

What is a battery energy storage system?

Our battery energy storage systems (BESS) are a unique solution to the net zero target and energy crisis, but as a new technology, we receive many questions about the installation process. We're here to answer them.

How long does delivery take from order to installation?

This is dependent on a range of factors. As a general guideline, we can usually deliver in around 6 – 8 weeks however several things need to happen before we can commission a system. The key component that can cause delays is liaison with the DNO (Distribution Network Operator).
