

# How much does a Lithuanian energy storage power station cost

Support Customized Product

## Overview

---

In order to break down monopoly in the natural gas market of Lithuania, the first large scale LNG import terminal in the Baltic region, was built in port of Klaipėda in 2014. It will be supplying 540 million cubic meters of natural gas annually from 2015 until 2020. The terminal is able to meet all of Lithuania's demand, and 90% of Latvia's and Estonia's demand.

Which power plant provides energy storage in Lithuania?

Kruonis Pumped Storage Plant provides energy storage, averaging electrical demand throughout the day. The pumped storage plant has a capacity of 900 MW (4 units, 225 MW each). Kaunas Hydroelectric Power Plant has 100 MW of capacity and supplies about 3% of the electrical demand in Lithuania.

How much energy does Lithuania import from Russia?

In 2020 Lithuania imported almost 70% of its energy, with 96.1% of imports coming from Russia. In 2021, Lithuania spent over €3 billion on Russian oil, gas, and electricity. In 2025, Lithuania stopped importing electricity from Russia.

How much electricity does Lithuania generate?

According to Litgrid's (Lithuania's electricity transmission system operator) preliminary data, in the first half of the year 2024, the national electricity generation amounted to 3,783.4 GWh, of which RES accounted for 2,990.1 GWh.

What is Lithuania's energy strategy?

The Strategy has 4 main objectives – to ensure a secure and reliable supply of energy to all consumers, to achieve 100% climate-neutral energy for Lithuania and the region, to transition to an electricity economy and develop a high value-added energy industry, as well as to ensure the accessibility of energy resources for consumers.

Will Lavastream install a thermal power plant in Lithuania?

Lavastream plans to install a thermal power plant with a capacity of around 30 MW in Klaipėda and 15 MW in southwestern Lithuania by 2028, as well as a geothermal-geological long-range electricity storage system.

Which natural gas companies are in Lithuania?

Natural gas companies in Lithuania include Lietuvos Dujos and Ignitis. In 2021 Lithuania used coal to generate 2% of the country's electricity. Renewable energy includes wind, solar, biomass and geothermal energy sources.
