

How much does the Laotian energy storage power station cost

Overview

How much does electricity cost in Laos?

To its credit, state-run electricity company Electricité du Laos (EDL) is trying to encourage more solar power development by offering a tariff rate of USD 0.08 per kilowatt-hour (kWh). That's higher than the rate for hydropower-generated electricity, which ranges from USD 0.05 to 0.06 per kWh.

How much electricity does Laos export?

The export of Laos' electricity generation has grown 10% annually for the past 15 years. During those years, the country has exported over three-quarters of its electricity. Laos aims to add another half of what they have today with 44 hydropower projects planned or under construction.

What is Laos' largest power plant?

Its goal was to develop a 1,878 MW lignite mine-mouth power plant. What resulted was Laos's highest-capacity power generator, providing energy for Laos and Thailand. Before the Hongsa Coal Power plant started operation in 2015, Laos' energy production was coal-free.

How many sources of energy does Laos have?

The Minister stated at the National Assembly that as of 2020, Laos already had 82 sources of energy with a combined installed capacity of more than 10,000 MW. One-fifth of those plants are coal-fired. According to Our World in Data, in 2020 coal power comprises close to half of Lao's electricity generation.

Should Laos rely on hydropower?

At first glance, it would appear that Laos' overreliance on hydropower would be beneficial in terms of energy independence and a negligible carbon footprint, but challenges remain. On the one hand, hydropower is considered a clean energy source.

How many coal projects are there in Laos?

But one thing is clear: numbers are climbing. The Global Energy Monitor has identified at least six coal projects that have been announced in addition to the currently operational Hongsa plant, which will add 6700 MW of coal to Lao's energy mix. Here are some examples of details of some of these plants from available news sources:
