

# How to adjust the discharge power of the battery cabinet

## Overview

---

How do I use a battery discharger?

A discharger helps drain the battery gradually and safely. If you don't have a specialized discharger, you can use a resistor or a light bulb as a load. Step 5: Connect the battery to the discharger or load. Ensure you make a secure connection and that all the terminals are matched correctly.

How do I Change my battery reserve capacity?

You can change your battery reserve capacity setting from the battery storage page on the Enphase App for any of the smart profile settings. 3 The Enphase App comes with the Storm Guard feature that monitors weather conditions in your area.

When should a battery be discharged?

It is important to discharge the battery when it is at or below 20% of its capacity. If the battery is fully charged, use it until it reaches the desired discharge level. Step 3: Remove the battery from the device or equipment it powers. Ensure the device is turned off and unplugged to prevent any accidental power surges.

How do you drain a battery?

If the battery is fully charged, use it until it reaches the desired discharge level. Step 3: Remove the battery from the device or equipment it powers. Ensure the device is turned off and unplugged to prevent any accidental power surges. Step 4: Find a compatible discharger or load. A discharger helps drain the battery gradually and safely.

What happens if a battery reaches 85% SoC?

The value is increased once a day when the battery reaches the lower limit for the first time. When the battery reaches 85% SoC on the day, the increment for that day is canceled and the limit remains the same as the previous day. If

the battery reaches 95% on any day, the dynamic discharge limit is lowered by 5%.

How do I Turn on/off the DC switch for IQ battery 5p?

You can turn ON/OFF the DC switch for IQ Battery 5P without removing the cover. Your support agent will ask for details on the status LEDs in your system. Be prepared to provide information about the IQ Battery 5P storage system LED indicators and the IQ Combiner 5/5C (IQ Gateway) LED indicators.
