SolarMicrogrid Solutions

How to use Huawei photovoltaic communication base station inverter to connect to the grid

Overview

How do I add my Huawei solar inverter to the energy app?

To add your Huawei solar inverter to the Energy App you need your Huawei Username and Password. These are the same credentials used for the Huawei FusionSolar for monitoring your solar panels. For this functionality Energy+ and a Huawei inverter with an internet connection are required. The API data is available in the Energy app per 15 minutes.

How do I connect a Huawei inverter?

Go to Settings > Devices > Add device > Huawei and enter your login credentials. The app will now connect to the inverter. If your graph shows incomplete or no data, make sure that your inverters are in the same installation. You can check this by going to the Huawei app.

Do I need a Huawei inverter to use energy+?

For this functionality Energy+ and a Huawei inverter with an internet connection are required. The API data is available in the Energy app per 15 minutes. It is not possible to view the live data as with the HomeWizard kWh meter or P1 meter.

How do I connect a fusion solar inverter to a WLAN?

Run the FusionSolar app and access Device Commissioning. (Perform this step only for the FusionSolar app.) Connect to the inverter WLAN. Tap Scan. On the QR code scanning screen, align the QR code with the scanning box to automatically scan and connect to the WLAN of the inverter. The WLAN name of a product consists of "Device name-Product SN.".

How do I install a 4G PV plant?

Connect to the management system. After the commissioning is complete, remove the USB-WLAN module, install the 4G module. Check the indicator status. After the indicator is steady green or blinks at short intervals (on for

0.2s and then off for 0.2s) add a PV plant. Add a plant. Create an owner account.

How do I connect my PV plant to the Internet?

intl.fusionsolar.huawe i.com and Port number to 27250. Select a router that can connect to the Internet and enter the router password. Enabled Monitor the PV plant through the management system. intl.fusionsolar.huawe i.com and Port number to 27250. If Ethernet is disabled, the network cable is not connected. Reconnect the network cable.

How to use Huawei photovoltaic communication base station inverter

Decoding Huawei's Photovoltaic Inverter Communication Interfaces

In Huawei's ecosystem, communication interfaces do more than just talk - they negotiate. During peak production hours, inverters automatically auction excess capacity to neighboring ...
