

Huawei 175Kw inverter connected to the grid

Overview

How do I install a Huawei inverter?

Issue 02 (2019-06-05) Copyright © Huawei Technologies Co., Ltd. Page 30
Handles are packed in a fitting bag and are not delivered with the inverter.
Installing the Inverter Step 1 Mount the inverter on the mounting bracket.
Step 2 Tighten the two screws at the bottom of the inverter.

How do I change the grid connection status of the inverter?

The grid connection status of the inverter is switched by using the Backup Box. The critical load power does not exceed the max off-grid output power of the Inverter. You can add inverters and batteries to increase capacity. A maximum of three inverters can be cascaded.

What if the inverter has no output power?

When the inverter has no output power, set this parameter to Positive if the active power reading of the power meter is positive. Otherwise, set this parameter to Reverse. Total power: controls the total power at the grid-tied point to limit the power fed to the power grid.

How long does it take to inspect a Huawei inverter?

The first inspection is 6 reliability months after the initial commissioning. From then on, the interval can be 6 or 12 months. Issue 02 (2019-06-05) Copyright © Huawei Technologies Co., Ltd. Step 1 Remove the screw on the fan tray and save it. Pull out the fan tray until the fan baffle plate aligns with the inverter chassis.

How many people can carry a sun2000-175ktl-h0 inverter?

The inverter needs to be carried by four persons or using a pallet truck. 2.3.2 Product Nameplate Figure 2-4 Nameplate (SUN2000-175KTL-H0 is used as an example) (1) Trademark and product model (2) Important technical specifications (3) Compliance symbols (4) Company name and country of

manufacture The nameplate figure is for reference only.

How do I remove a fan tray from a Huawei inverter?

Issue 02 (2019-06-05) Copyright © Huawei Technologies Co., Ltd. Step 1

Remove the screw on the fan tray and save it. Pull out the fan tray until the fan baffle plate aligns with the inverter chassis. Figure 8-2 Pulling out fan tray

(1) Step 2 Remove the cable ties shared by the cables, unscrew the connectors, and disconnect the cables.
