

SYSTEM SERIES DIAGRAM

The diagram illustrates the system architecture and component connections. Key components and their interconnections include:

- AC Supply:** Grid or Generator, connected to the AC Distribution unit.
- AC Distribution:** Contains an AC Breaker and is connected to the AC Supply and the AC Inverter.
- AC Inverter:** Converts AC from the grid/generator to DC for the battery bank.
- DC Distribution:** Distributes DC power from the battery bank to the AC Inverter and the DC Load.
- DC Load:** Connected to the DC Distribution unit.
- 48V Pyrotech Battery Module:** Two modules connected to the DC Distribution unit.
- Controller:** A central unit with a display, connected to the AC Inverter, DC Distribution, and the CANbus network.
- CANbus Network:** A CANbus Type B Cable network connecting the Controller, CANbus Terminator, Ethernet, and Internet.
- PV Array:** Connected to the DC Distribution unit via a PV Array cable.

Huawei Brunei photovoltaic panel factory

Brunei Photovoltaic Panel Manufacturer Powering Sustainable ...

Summary: Discover how Brunei's photovoltaic panel manufacturers are shaping the renewable energy landscape. Explore market trends, technological advancements, and strategic ...
