

Huawei s third-generation desert photovoltaic panels

Overview

Are solar panels transforming the Kubuqi Desert?

Sandy and mostly devoid of life, the Kubuqi Desert in Inner Mongolia once had a reputation for being a “sea of death.” More recently, its dune fields have become a sea of photovoltaic possibility, transformed by a surge of newly installed solar panels.

Where is Huawei's solar power station located?

In the Kubuqi Desert of Inner Mongolia, the State Power Investment Corporation used Huawei's smart PV solution to build a 300 MW solar power station. The power station located in Dalad Banner, an administrative region in Inner Mongolia, boasts 196,000 solar panels that were installed in the pattern of a galloping horse.

Does China have a solar project in Kubuqi Desert?

Global Times (2023, December 3) China's largest environmental desert control PV project starts operation in Kubuqi desert Accessed December 27, 2024.
Global Times (2022, September 4) How China develops solar energy to turn Kubuqi Desert into an oasis?
