

Install photovoltaic panels on your roof and get paid

Overview

In 2025, U.S. homeowners can take advantage of a 30% federal tax credit, new low-income solar programs, and state-level rebates to drastically cut the cost of installing solar panels. Learn how you can save thousands—or even get paid—to go solar. Can I install solar panels on my roof if I don't own a building?

You can't install a solar panel system on your roof if you don't own the building. However, that doesn't mean you can't go solar! Community solar is a great way for renters to support local clean energy projects and save money on electricity bills—you don't need to install any equipment to subscribe to a local community solar project.

Can a roof support solar panels?

But, here's what else needs to happen: Make sure your roof can support solar panels. A solar installer, roofing expert, or structural engineer can help you determine your roof's solar suitability.

How much does solar installation cost?

On the high end, we talked to a solar customer in Hawaii who spent \$100,000 going solar. Dion in Nevada said their 10-kW system cost about \$20,000, which is about the national average price for a 7-kW system. What else affects solar installation costs?

.

How much does it cost to rent a roof for solar panels?

That's what a Clark listener wanted to know on the April 10 podcast episode. Asked John in California: "I live in Los Angeles. The L.A. department of water and power offers a program where they will pay me up to \$240 per year to rent my roof for solar panels."

Why should I install solar on my roof?

Installing solar on your roof has many great advantages! Solar panels generate electricity from sunlight, reducing the amount of electricity you use from the grid. Solar energy is a clean and renewable energy. By installing solar, you support a clean energy resource.

Should I rent my roof to a solar energy company?

All you have to do is allow them to use your roof — but for a good cause. You can get paid by renting your roof to a solar energy company and helping create clean energy. Should you do it?
