

Ireland Cork Sinovanadium Energy Storage Project

12.8V 100Ah

Overview

Will a new battery storage plant be built in Cork?

RWE's 60MW plant recently went live in Monaghan and Iberdrola has turned on a 50MW battery storage system in Meath. While Microsoft has said it is planning to build one in Dublin at its data centre there. A new battery storage plant, designed to help ease out the supply demand imbalances caused by renewable energy, has gone online in Cork.

How will a new battery plant help Ireland's Electricity System?

Picture: Darragh Kane The Electricity Supply Board has opened a new major battery plant at its Aghada site in County Cork. The project will add 150MW (300MWh) of fast-acting energy storage to provide grid stability and deliver more renewable power to Ireland's electricity system.

Will ESB deliver Grid-scale battery technology in Cork & Dublin?

The projects are ESB's first in a pipeline to deliver grid-scale battery technology at sites in both Cork and Dublin. A new battery storage plant, designed to help ease out the supply demand imbalances caused by renewable energy, has gone online in Cork.

Which ESB projects are being delivered in Cork & Dublin?

This battery-energy-storage-system (BESS) is the latest in ESB's pipeline of projects to be delivered at sites in Cork and Dublin, which are part of its investment of up to €300m in the technology. In 2022, ESB launched the first of its BESS sites, the 19MW (38MWh) project, which is also in Aghada.

Could a new battery storage plant help ease supply imbalances?

A new battery storage plant, designed to help ease out the supply demand imbalances caused by renewable energy, has gone online in Cork. The 19MW facility at Aghada provides stored electricity into the grid when required to create stability amid fluctuations in supply. The plant was built for the ESB by

Fluence, Powercomm Group and Kirby Group.

Where are Ireland's most exciting energy projects being developed?

Photograph: Bloomberg One of Ireland's most exciting and important energy projects is quietly being developed at a remote outpost in Donegal, not far from Malin Head.
