

Irish mobile energy storage power supply manufacturer

Overview

Which battery energy storage systems are available in Ireland?

The Kylemore Battery Energy Storage System in Dublin went into operation in 2023 and has the capability of providing 30MW of fast-acting storage. The South Wall Battery Energy Storage System went live in 2023 and has the capability of providing 30MW of fast-acting energy storage.

How many MW of battery storage capacity are there in Ireland?

We currently have more than 300MWs of battery storage capacity in operation in Ireland, making it one of the largest battery portfolios in Europe. We plan to develop a pipeline of large scale battery projects, as well as additional renewable enabling technologies.

Do I need a 30kW Charger in Ireland?

Many premises in Ireland do not have the necessary power supply to support higher-powered chargers without significant and costly electrical upgrades. A 30kW charger can typically be installed with the existing electrical setup, making it a more practical and cost-effective option for many businesses and homes.

What is the Poolbeg battery energy storage system?

The Poolbeg Battery Energy Storage System in Dublin went into operation in November 2023 and has the capability of providing 75MW of fast-acting energy storage. It is located at Poolbeg Energy Hub where we plan to deploy a combination of clean energy technologies, including offshore wind and hydrogen over the coming decade.
