Overview

Does Telma have a 5G network in Madagascar?

Ericsson was selected by Telma in October 2019 to upgrade its core and radio network in Madagascar building on the two companies' existing 5G partnership. Telma has activated the 5G network on 3.6-3.7GHz spectrum bands using the latest radio access and transport products from the Ericsson Radio System portfolio.

What is 5G & how will it impact Madagascar?

The 5G network is powered by Ericsson equipment and is now live in Madagascar's capital of Antananarivo and the city of Toamasina. "5G will transform how we use and adopt technology and will have a huge impact on businesses and society in Madagascar," said Telma Madagascar CEO, Patrick Pisal-Hamida, about the launch.

Will 5G be available in Madagascar?

The company said Madagascar would be "the first African country to benefit from the new generation of mobile connectivity." However, ARTEC pointed out that Telma was not granted authorization to market 5G services on the Malagasy market, but rather a temporary authorization to experiment with the technology for one month.

Will Madagascar be the first African country to benefit from 5G?

On July 1, 2020, the mobile operator announced the commercial launch of its 5G services, in partnership with telecom equipment manufacturer Ericsson. The company said Madagascar would be "the first African country to benefit from the new generation of mobile connectivity."

How many 5G networks does Telma have?

With Telma's launch, Ericsson currently has 41 live 5G networks in 24 countries. Ericsson's live networks are part of 95 commercial 5G agreements

or contracts, of which 55 are publicly announced 5G deals. Telma has become the first operator to launch a 5G commercial network in Madagascar, powered by Ericsson.

Why is Ericsson partnering with Telma in Madagascar?

Ericsson was selected by Telma in October 2019 to upgrade its core and radio network in Madagascar building on the two companies' existing 5G partnership. 5G will transform how we use and adopt technology and will have a huge impact on businesses and society in Madagascar.
