

Is Taipei s 5G base station not powered

Overview

How many 5G base stations are there in Taiwan?

The carrier currently operates a total of 8,000 5G base stations, with plans to expand this figure to 10,000 by the end of the year, according to the sources. The operator was the first telco in Taiwan to receive a license for 5G services from the National Communications Commission (NCC).

Which 5G network is best in Taiwan?

Far EasTone and Taiwan Mobile came in second and third place, respectively. GT and T Star ranked fourth and fifth, with median download speeds of 190.48 Mbps and 113.85 Mbps. Chunghwa Telecom's 5G network extends to 97.6% of locations in Taiwan with 5G coverage.

How many people use 5G in Taiwan?

In November last year, one-and-a-half years after 5G was launched in Taiwan, the nation had about 25,000 base stations, with a service coverage rate of 87 percent and 4.38 million users, or 18.76 percent of the population, NCC data showed. This compares with 10.08 million 4G users 18 months after that service was launched in 2014, it said.

Who has 5G coverage in Taiwan?

Chunghwa Telecom's 5G network extended furthest across Taiwan, at 97.6% of locations with 5G coverage during Q2-Q3 2023. Far EasTone followed with 88.9%, and Taiwan Mobile with 85.6%. GT and T Star have an almost equal 5G footprint, reporting 49.7% and 49.0% respectively.

How fast is Taiwan's 5G network?

In Q3 2023, Speedtest Intelligence® data revealed that Taiwan's 5G network had achieved a median download speed of 263.35 Mbps, outperforming its regional counterparts, including Vietnam (257.95 Mbps) and China (245.94 Mbps).

How much money has the government budgeted for a 5G base station?

The government has budgeted about NT\$15.5 billion (US\$548.5 million) to subsidize telecoms for the building of 5G base stations, with the aim of raising service coverage to 85 percent in two-and-a-half years, the National Communications Commission (NCC) said yesterday.
