

Ivory Coast solar mobile home customization

Overview

Who builds a solar power plant in Ivory Coast?

RMT builds a 37.5 MWp solar power plant and installs . Boundiali photovoltaic solar power plant in northern Ivory Coast was built in partnership with the country's government, in particular CI-ENERGIES, and with financial support from Germany. It has been in operation since July 2023.

Why did Ivory Coast build its first solar power plant?

As part of its drive to diversify electricity generation sources and increase the share of renewable energies in its energy mix (45% by 2030), Ivory Coast commissioned RMT to build the country's very first photovoltaic solar power plant, with a capacity of 37.5 MWp, spread over 69,440 550 Wp solar panels and 168 inverter-strings of 250 kVA.

Is Abidjan a good place to install solar power?

Abidjan, Ivory Coast, is a highly suitable location for solar photovoltaic (PV) power generation due to its relatively consistent average daily energy production per kW of installed solar across all seasons. In this city, the average kWh per day per kW of installed solar is 4.79 in Summer, 5.36 in Autumn, 5.25 in Winter, and 5.53 in Spring.
