

Kenya has a production energy storage power station

Overview

East African country, Kenya, has launched its very first Battery Energy Storage System (BESS) to supply uninterrupted renewable power to its modular data center in the nation's capital, Nairobi.

Kenya has a production energy storage power station

Kenya Energy Storage System

KP believes that more than 480MW of BESS is required across different locations in the country, such as western Kenya, where there is inadequate transmission capacity at peak ...
