

Korean outdoor inverter

Overview

What is Sungrow outdoor central inverter?

A wide portfolio of Sungrow outdoor central inverter solutions ranging from 1.25 MW to 3 MW were deployed on-site, offering an optimal performance given the advanced three-level topology technology. Equipped with multiple MPPTs, the solutions are ideal for mountainous installations.

Which inverter is best for a solar system?

String inverters are the most economical among other options and are a proven inverter technology. These inverters are also the easiest to maintain as they are easy to access. If a solar system uses a string inverter, it will produce limited electricity.

Is Sungrow a reliable inverter supplier?

Sungrow also shows reliable and robust momentum in the global landscape as the only inverter supplier ranked 100% bankability by BloombergNEF for two consecutive years. Its latest 1H financial report shows a 55.57% year-on-year growth rate in revenue while the cumulative installations reaching 120 GW as of June 2020.
