

# **Kosovo Outdoor Power Exchange Station**

## Overview

---

In collaboration with Albania, Kosovo plans to implement market coupling and launch the Albania Power Exchange (ALPEX) in 2023. This initiative is designed to enhance cost-efficiency for meeting renewable energy targets and to improve system flexibility. Overview The electricity sector of relies on coal-fired power plants (92% as of 2023) and is considered one of the.

The main institutions responsible for the energy sector management in Kosovo are: Ministry of Economic Development (MZHE) and (ERO). Important responsibilities are also held by the.

By 2021 Kosovo had 279 MW of Renewable Electricity Standard (RES) power generation capacity installed. The Kosovo energy strategy includes increasing RES capacity to 35% of electricity c.

exploitation in Kosovo started in 1922. New mines were opened to satisfy the needs by increasing generation capacities. Kosovo Energetic Corporation (KEK) is a public company, which owns and operates with.

is a key point in because of its geographic position in the center of the region. As such, electrical energy transmission system is very well connected to neighboring systems with transmissio.

Which power stations are in the electricity sector in Kosovo?

The following page lists the power stations in the electricity sector in Kosovo .  
/ 42.40358; 21.51285 ( Kahl Nuclear Power Plant) / 42.41344; 21.32833 ( Kahl Nuclear Power Plant) / 42.970556; 21.014722 ( Kahl Nuclear Power Plant) / 42.655833; 21.666389 ( Kahl Nuclear Power Plant).

Does Kosovo have a power exchange with Albania?

After the agreement between KOSTT - ENTSO-E, Kosovo made a joint with Albania and the 400 kV interconnection known as "Energy Highway" (or in Albanian "Autostrada Energjetike"), which was finished in 2016, but it was enabled in 2020, opening the way for the establishment of a joint power exchange between Kosovo and Albania.

Will Kosovo a power station be refurbished by 2024?

In March 2023, Kosovo's new energy strategy until 2031 included plans to refurbish at least one unit of Kosovo A power station by 2024, in addition to both units of Kosovo B power station.

Are power plants polluting the environment in Kosovo?

Since most of electric power is produced by power plants in Kosovo they are considered the main environment pollutant. Actual emission of gases, dust and waste-water discharged from the existing power plants, are above the levels allowed by the EU directives.

Why is Kosova A decommissioning a power plant dangerous?

A study by the European Commission on decommissioning the power plant “Kosova A” published in March 2010, had highlighted the high health and safety risks for the operators and for the maintenance workers due to breakdown of plant systems and structures, neglected maintenance and poor housekeeping.

When will Kosovo a units be refurbished?

The Energy Strategy 2022-2031 document outlined that one of Kosovo A units will be refurbished by the end of 2024, while the decision to refurbish or phase out the second unit will be made in 2024 at the latest.
