

# Lesotho is building a 5G base station

## Overview

---

Is 5G coming to Lesotho?

Following in the footsteps of Vodacom, which introduced the technology in August 2018, Econet Lesotho has become the second mobile operator in the country to deploy 5G, marking a significant step forward for Lesotho's telecommunications sector.

Why is Econet launching 5G in Lesotho?

The commercial introduction of 5G by Econet is poised to meet the increasing demand for high-speed connectivity from its customers more effectively. This technological advancement is expected to not only attract new subscribers but also strengthen Econet's position in Lesotho's telecom market, particularly in the internet services sector.

What are the benefits of 5G technology for Vodacom subscribers in Lesotho?

The immediate benefit of 5G technology for Vodacom subscribers in Lesotho includes the quicker deployment of broadband services with fibre-like speeds.

Who is Econet Lesotho?

(Ecofin Agency) - Econet Lesotho, a subsidiary of Zimbabwean billionaire Strive Masiyiwa's Econet Group, announced on February 22 that it has launched fifth-generation (5G) mobile technology in the country.

What is Africa's first commercial 5G service?

Vodacom Group launches Africa's first commercial 5G service. Vodacom Group today announced that it has created Africa's first standards-based, commercial 5G service in Lesotho using 3.5GHz spectrum to initially deliver Fixed-Wireless Access broadband services to two enterprise customers in Lesotho.

Does Lesotho have a high Internet penetration rate?

Additionally, the country faces challenges with overall internet adoption; as per DataReportal's latest statistics, Lesotho had only 1.1 million internet subscribers at the beginning of this year, equating to a penetration rate of 47%.
