

Lithium Battery Site

DETAILS AND PACKAGING

① USER MANUAL PDF

② RJ45 Cable For RS485/CAN

③ Battery in Parallel Cables

④ RJ45 TO USB Monitor Cable

⑤ M8 Terminal*4

Overview

Where are lithium batteries made?

Big News from Lithium Battery Company! We've expanded with a cutting-edge, fully automated factory at 5201 S Westshore Blvd, Tampa, FL! Advanced lithium-ion battery solutions for defense, medical, marine, and industrial applications, manufactured in our Tampa, FL facility.

Are lithium ion batteries safe?

Every battery comes with a built-in battery protection system designed to protect and maintain the battery cells. Lithium Batteries average 70% lighter than the same size lead battery. Plus - our batteries don't contain toxic lead, gases, or acid. CHARGEEX® Lithium Ion Batteries can be discharged to 100% of the rated capacity.

What is Bluetooth monitoring for lithium batteries?

Our exclusive Bluetooth monitoring system for lithium batteries is a smart addition built to banish battery anxiety. And it's just one of the many cutting edge upgrades that sets LithiumHub batteries apart from the pack. Download the Ionic App on the Google Play Store or on Apple's App Store.

How do I connect a lithium battery?

Simply connect your battery cables and you're ready to go. Connect multiple batteries in series and in parallel to increase voltage, power, and capacity. Every battery comes with a built-in battery protection system designed to protect and maintain the battery cells. Lithium Batteries average 70% lighter than the same size lead battery.

Where can I find the best LiFePO4 battery prices?

Get the best LiFePO4 battery prices at Lithium Battery Store! Browse our wide selection of high-quality lithium iron phosphate batteries for solar power systems, electric vehicles, and more. Shop now and experience the superior

performance and longevity of LiFePO₄ batteries.

How do Chargex® lithium batteries work?

Chargex® lithium batteries feature Lengthway Circuit Boards, which bolt each cell together—providing structural rigidity and seamless integration with the Battery Management System (BMS) for precise cell balancing.
