

Moldova 14v lithium iron phosphate outdoor battery cabinet

Overview

What type of batteries do MPED outdoor batteries use?

Amped Outdoors batteries use LiFePO₄ Batteries (Lithium Iron Phosphate). These are the safest and longest lasting Lithium Batteries available. All batteries have built in BMS (Battery Management System) which gives you charging and discharging cutoff protection for your safety and increased longevity of our products along with cell balancing.

What is a lithium iron phosphate unit?

Built with premium lithium iron phosphate cells and a weather-resistant IP65-rated enclosure, this floor-mounted unit offers long-lasting, safe energy storage for residential or commercial installations.

Are the battery cabinets modular?

Whether you're planning an on-grid project or an off-grid solution, the battery cabinets are designed to be modular and easily expandable in the future. We've designed our solutions to guarantee safety and comfortability for you. All our battery solutions are forklift-ready and can be easily installed at the site.

How many batteries are in a battery cabinet?

Each Battery cabinet contains two battery strings, each battery string contains total 26 battery modules connected in series. Each battery cabinet contains two HVAC system, and one set aerosol Fire Suppression System.
